

Horizontal Cable Manager with Cover

Avalon Horizontal Cable Managers with cover are capable of managing cables on the front and rear of any standard EIA 19" rack or cabinet. These cable organizers feature a removable top cover that makes it easy to add or remove bundled cables quickly. The duct also offers a series of fingers on either side, as well as pass-through holes at the back to help you route your cables where you need them, and reduce cable strain in the process.

Features

- Maintains cable bend radii
- Curved fingers separates and organizes cables for simple moves, adds and changes
- Cables pass through holes and provides ease of installation and cable maintenance
- Provides durability and easy installation
- Hinged front cover opens 180° up or down to allow hands-free access to cable

Specifications

- Meets 19" Rack mounted EIA310-D standards
- Metal: Steel construction finish

Applications

- The panels can be used in 19" cabinets for multimedia applications with all copper and fiber optic cables.
