

## 4U Rack Mount Din Rail Panel Kit

The mounting kit consists of a frame and a panel with a DIN-rail attached to it. Devices can be mounted onto the DIN-rail or onto the panel itself, and the panel can be adjusted to the desired depth. The frame has a rugged construction so devices will be securely mounted within a 19-inch rack cabinet. . The assembled kit is 4U in size. DIN rail-mounting kit allows mounting of bell transformers, terminal strips, programmable time switches and circuit breakers and other DIN rail equipment in an enclosure or open frame rack.

### Technical Specifications

- All Steel construction
- Frame Made of 1.0 mm thick SPCC
- Powder Coated matt black finish
- Manufactured using CNC machines only
- Black Epoxy Powder Coated Paint (RAL 9005)

### Features

- Ideal for DIN equipment, including power supplies, terminal strips and circuit breakers
- Compatible with EIA-standard 19 in. open frame racks and floor rack enclosures
- Durable cold-rolled steel construction designed to stand up to heavy use over time
- Rack-mounting hardware included for immediate installation
- Includes multiple rail-mount options, including top hat, mini top hat and G style
