Horizontal Blank Panels

Avalon Horizontal Blank Panels are installed in unused rack openings to reduce airflow through open spaces. These Panels which are designed of metal allow easy installation by hand and are fitted by the help of cage nuts. These Panels are available in 1 Rack Unit (RU) or 2 RU sizes to enable the blanking of multiple rack unit configurations.

Application

19" Horizontal Blank Filler Panels are ideal for installations where open or expansion rack space is to be covered.

Specifications
