Horizontal Cable Managers- Open Type

Avalon Horizontal Cable Managers with open type access are capable of managing cables on the front and rear of any standard EIA 19" rack or cabinet. These Panels are constructed of a steel panel with gaps in between for easy access. Horizontal panels shall have pass-through gaps and shall be available in both front and rear versions and front only versions.

Features

- Modular, snap-in gaps provides flexibility for System requirements
- Allows easy access to cables for moves, additions and changes
- Prevents cable snags
- Provides ease of installation and cable maintenance
- Available in a variety of styles
- Suitable for large and small cabling installations
- Lightweight, sturdy construction
- Easy to work with while still providing durability

Specifications

- Meets 19" Rack mounted EIA310-D standards
- Steel construction finish

Applications

- The panels can be used in 19" cabinets for multimedia applications with all copper and fiber optic cables.
